The 5 Rules Refresher

1. **The Momentum Start:** do one scary or difficult task before you feel ready.
2. **The "But I Will" Habit:** execute your committed daily discipline, even with zero motivation.
3. **The Soul Focus:** 10 minutes of journaling or reflection focused entirely on internal growth.
4. **The Input:** read 10 pages or listen to one Chapter Chat/Song from The Momentum Series.
5. **Zero "When I..." Statements:** catch and eliminate any thought that delays living until conditions are perfect.

The Excuse Destroyer Protocol

When you hear the excuse, execute the protocol.

The Excuse	The Protocol
"I'm too tired today."	"Do 10%. Just open the laptop. Just put the shoes on. A smaller version still counts."
"I'll make up for it tomorrow."	"Tomorrow doesn't exist. The universe doesn't pause. Momentum is only built today."
"It's not perfect."	"Perfect is a delay tactic. Ship it messy."
"I don't have time."	"You have the same 24 hours as everyone else. Drop the scrolling. Reclaim 15 minutes."
"I don't feel like it."	"Confidence and motivation arrive fashionably late. Act first. Feel later."
